If you have the resources and would like to, please consider reimbursing Servants for Sight for the glasses you will provide during your eye clinic through a tax deductible donation to our organization. It cost our organization approximately \$1 per pair of reading glasses and \$3 per pair of myopic glasses. So, for example, the suggested donation amount for the standard amount of glasses would be \$166 for reading glasses and \$108 for the Myopic glasses (also known as distance glasses).
